An Introduction to Graphic Recording

Belfast
16th November 2010
Agenda

• Intros
• What is graphic harvesting?
• Warm Up
  • Technique Part A
  • Materials- try out those markers!
  • Technique Part B
• LUNCH
• Drawing Exercise
• Process
• Practice
• Closing and Feedback
What is Graphic Recording?

• Capturing the meaning of key conversations in a visual way.
Simply:

• Graphic recording involves capturing on large-sized paper— in words, images and color—people’s ideas and expressions as they are being spoken in the moment. (World Café)
...and Graphic Facilitation?

- Facilitating AND recording at the same time- using your graphic recording to make the process visible.

Why Ageing is a Development Issue

Richard Hewitt

Older People Agenda

Why Ageing is an international issue

Key Issues:
- UNICEF: 30,000 staff
- People that focus on ageing: 30
- UN: People that focus on ageing?

We need an intergenerational approach

Recognising the role of women

Let's lobby government for the 1% for pensions!

What other countries can we learn from?

Good practice

80% of people in 4 South countries have no access to pensions. NOT a burden on younger generations?

Face of Ageing in developing countries

Rubbish!

Dependency Ratios

Key Issue: Why do we need to care?

Visibility in Statistics of older people

Funds are not reaching grandparents/older carers of orphans

Key Issue:

1. Health
2. Foster Engagement
3. Integrated Systems
4. Reimagine Ageing

Window of Opportunity

Imagine an age-friendly city

Working at 100 years old?

1% of GDP

The cost of providing an adequate pension

What does it mean to be old?

Whose responsibility?

What is retirement for?

What is the role of immigration?

You have a responsibility to put older people in the agenda!
